# WHAT IS DIVERSITY ?

"Diversity exists because even if we have a heart, two lungs, etc... it doesn't mean we are the same. We think differently and we have a different character."

(Gabriel, 3B).

"For me, there are different cultures that cross each other. Diversity can also be many children of different nationalities playing together. Diversity also means to be all together " (Rosemary, 3B).

**Our students discuss:**

'For me diversity doesn't exist. Despite we have different personality, all of us are human beings. In my opinion, everyone shouldn't make discriminations"

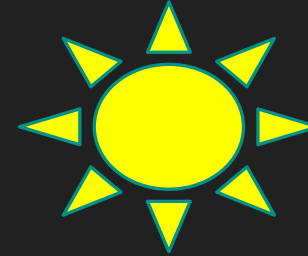

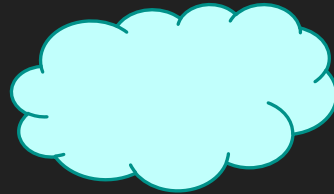

(Fabio, 3B).

"Those who are at war with others are not in peace with themselves. The truth is merely pure and simple. Maybe that's what life is....a twinkle of an eye and toes" (Vincenzo, 3B).

"The difference is very beautiful because we know new costumes, new religions, traditions, etc..it's something great because we enrich each other our cultural heritage " (Giuseppe, 3B).

"Diversity isn't difference. In my opinion, there must be equality especially between man and woman". (Niccolò ,3B).

"Nowadays as diversity we mean difference in the skin colour, hair, eyes, body...etc..we are unique and different because everyone has his/her own personality". (....., 3B).

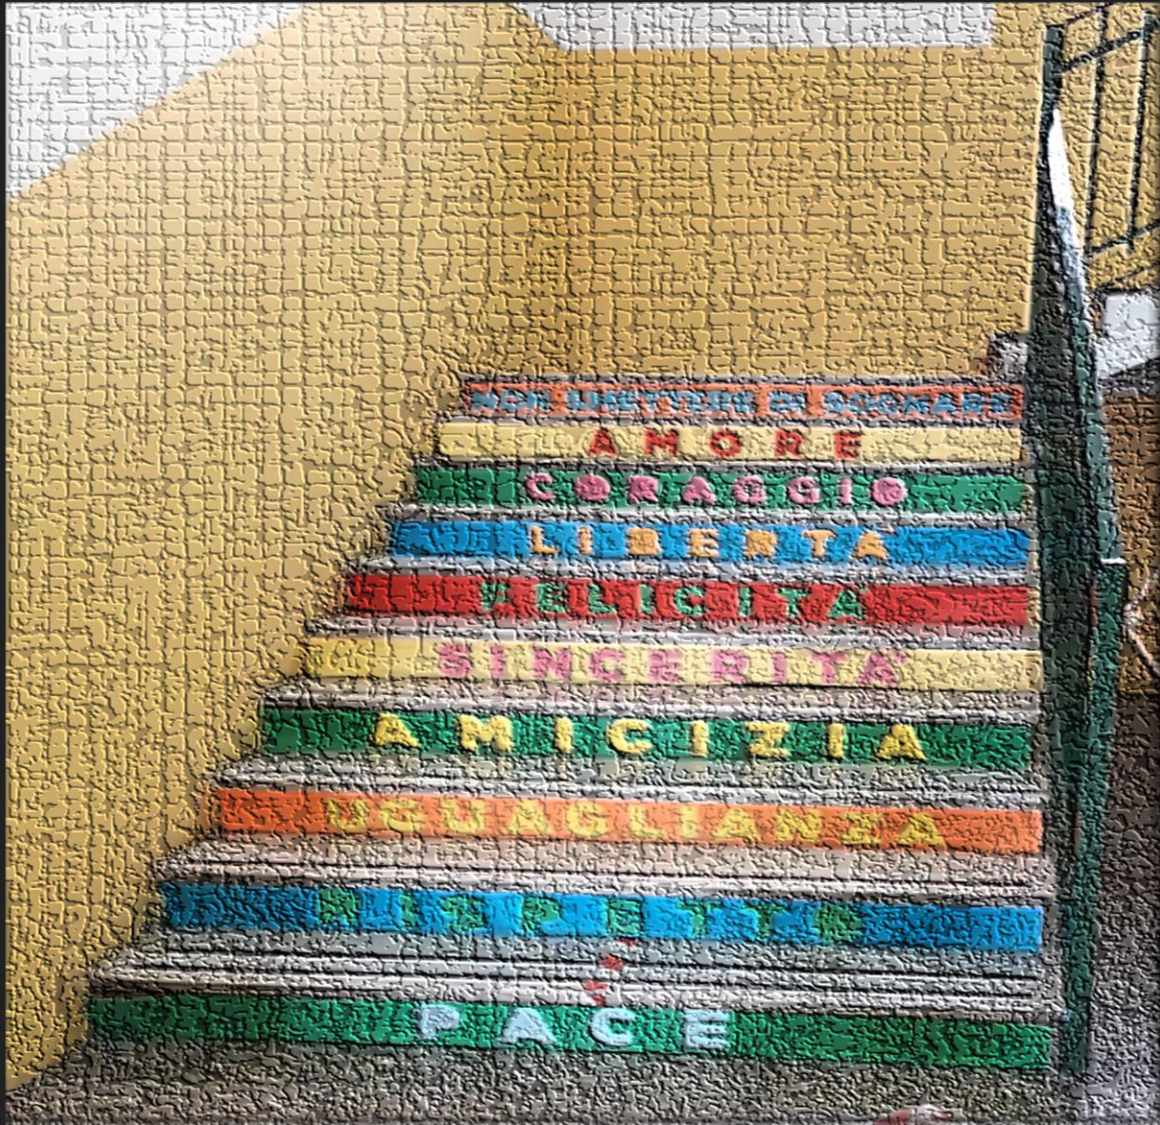

“Diversity is something that doesn’t exist. Diversity is something that man uses to discriminate. Diversity is something that can only be identified by our identity. Diversity shouldn’t exist but it does “ (Ernesto, 3B).

‘For me diversity doesn’t exist or rather everyone has a different personality , but all have a heart, a brain etc... For me, diversity doesn’t exist because even if we have a different character and behaviour, all have legs, eyes, a nose etc..’ (Alessandro, 3B).

“Diversity means different types of the same thing, like types of human beings, animals or things. In a simple word, variety. “ (Yanyan , 3B).

’In my opinion, diversity doesn’t exist because we are all the same. Diversity doesn’t exist but unfortunately in the world there are still discriminations. (Cassandra, 3B).

# EVERY COUNTRY HAS ITS "DIVERSITY"

In our globalised planet, we highlight the importance of communication and cooperation among countries. However, each country, despite being part of a unique "global, big village", has its own cultures and traditions to be respected and with their value. The Erasmus Project 2020/2022 under the title "Traditions that shape culture" has given us the opportunity of discovering this important issue. Every country has got its characteristics and its differences and each of them is to be included in a larger community.
