

LOGO CREATION WORKSHOP

In September 2020, as soon as the project started our students began to think of a logo to illustrate this exciting project.

First, they focussed on the meaningful words «traditions» and «culture» and then on the partners. In several groups, they drew different logos, then we selected the best one in our school (with an online vote in which all the pupils, families and teachers took part).

Finally, all the partners chose and voted for the logo that would illustrate the TTSC project for 2 years.
